GENERAL INSTRUCTIONS
Before the end of your first quarter, complete this program sheet by filling in the number, name and units of each course you intend to take for your degree. Meet with your adviser to secure the necessary signatures on the program sheet and any foundation course waiver forms; submit originals to the MS Program Administrator in Gates 182. Program sheets and waiver forms may also be submitted electronically on the Gates Information Network at http://gin.stanford.edu/ (click on ‘Dashboard’). See http://cs.stanford.edu/degrees/mscs/programsheets/psguide1516.pdf for detailed instructions.

FOUNDATIONS REQUIREMENT
You must satisfy the requirements listed in each of the following areas; all courses taken elsewhere must be approved by your adviser on a foundation course waiver form. Do not enter anything in the “Units” column for courses taken elsewhere.

Note: If you are amending an old program sheet, enter “on file” in the approval column for courses that have already been approved.

SIGNIFICANT IMPLEMENTATION REQUIREMENT
At least one course in your MS program should be designated as satisfying the "Significant Implementation Requirement". Note that this course will also be used to satisfy some other requirement (i.e., Breadth, Depth, or Elective). This requirement ensures that you have taken part in some form of substantial software development as part of the MSCS program. Letter grade only.

Courses that may be used to satisfy the significant implementation requirement include: CS 140, 143, 144, 145, 148, 210B, 221, 227B, 243, 248, 341, and 346 (any deviations from this list must be approved by the Associate Chair for Education). Courses meeting the Significant Implementation Requirement must be taken at Stanford. Students who previously took at least two of these courses at Stanford as undergraduates may request a waiver of this requirement.
