GENERAL INSTRUCTIONS

Before the end of your first quarter, complete a program sheet by filling in the number, name and units of each course you intend to take for your degree. Program sheets, as well as foundation course waiver forms, may be submitted electronically on the Gates Information Network at <http://gin.stanford.edu/> using your CS ID and password (click on the 'Dashboard' link). See <http://cs.stanford.edu/degrees/mscs/programsheets/psguide1920.pdf> for detailed instructions.

FOUNDATIONS REQUIREMENT

You must satisfy the requirements listed in each of the following areas; all courses taken elsewhere must be approved by your adviser on a foundation course waiver form. Do not enter anything in the "Units" column for courses taken elsewhere.

Note: If you are amending an old program sheet, enter "on file" in the approval column for courses that have already been approved.

Required:	Equivalent elsewhere (course numbers/titles/institution)	Approval	Grade	Units
Logic, Automata & Complexity (CS103)				
Probability (CS109, Stat116, CME106, or MS&E220)				
Algorithmic Analysis (CS161)				
Computer Organ & Sys (CS107 or 107E)				
Principles of Computer Systems (CS110)

SIGNIFICANT IMPLEMENTATION REQUIREMENT

At least one course in your MS program should be designated as satisfying the "Significant Implementation Requirement". Note that this course will also be used to satisfy some other some other requirement (i.e., Depth, or Elective). This requirement ensures that you have taken part in some form of substantial software development as part of the MSCS program. Letter grade only.

Course Number:	Title:	Grade

Courses that may be used to satisfy the significant implementation requirement include: CS 140, 140E, 143, 144, 145, 148, 190, 210B, 221, 227B, 243, 248, 341, and 346 (any deviations from this list must be approved by the faculty director of the CS MS program, Prof. Omer Reingold). Courses meeting the Significant Implementation Requirement must be taken at Stanford. Students who previously took at least two of these courses at Stanford as undergraduates may request a waiver of this requirement.

BREADTH REQUIREMENT

(Two courses minimum. Each course must be chosen from a different **Area**; no waivers allowed.)

ELECTIVES

List here any additional courses used to complete the 45-unit requirement for the MSCS degree. You may count up to a maximum of **three units** of 500-level CS seminars, CS300, EE380, EE385A, or other 1-2 unit seminars offered in the School of Engineering, as Electives toward the MS degree. Electives must be technical courses numbered above 100, related to the degree program, and approved by the adviser and the MS program administrator. CS courses numbered above 110, excluding CS196 or CS198, are pre-approved as MS electives. *Note that CS 129 may not be counted towards the MS if CS 229 is being counted towards any BS or MS requirement.*
